PROFILE

Front-end developer with solid experience in Vue.js and TypeScript, focused on building scalable and maintainable enterprise-level applications.

I enjoy solving complex problems, improving user experience, and working in professional teams that encourage growth and innovation.

Open-source contributions and daily learning are key parts of my routine to stay sharp and up to date in the fast-paced world of web development.

EDUCATION

2021 - 2022

BACHELOR'S DEGREE — TEHRAN
INSTITUTE OF TECHNOLOGY

2015 - 2017

ASSOCIATE DEGREE — IMAM KHOMEINI
UNIVERSITY OF MAZANDARAN

WORK EXPERIENCE

■ Front-end Developer — Trend Agency

Apr 2024 – Present | Tehran, Iran

Trend Agency is a digital marketing company that creates and manages large-scale advertising campaigns for major Iranian brands

- Contributed to rebuilding the company's campaign management platform using **Vue 3**, **TypeScript**, and **Vuetify 3**, replacing a legacy, unmaintainable system
- Designed a modular, scalable architecture using Composition **API**, **OOP**, and reactive state management with **Pinia**.
- Developed a full **CRUD** system for campaigns, invoices, and payments with real-time error handling and toast notifications.
- Implemented role-based access control and custom directives (v-td-tooltip, v-can, v-deny).
- Improved overall performance with **lazy loading**, **caching**, and **optimized data fetching**.
- Collaborated with UI/UX and backend teams to bridge design and logic — ensuring seamless data flow, clean component composition, and a polished user experience

SKILLS

- Languages:** TypeScript, JavaScript
- Frameworks:** Vue.js (3.x), React (familiar), Angular (familiar)
- UI & Libraries:** Vuetify, Tailwind CSS, Bootstrap, SCSS
- State:** Pinia, Vuex, Context API
- Architecture:** Component-based, Composition API, Modular Design
- API & Networking:** Axios, RESTful APIs, JWT Auth, Error Handling
- Tools:** Vite, Webpack, Git, GitHub
- Optimization:** Lazy Loading, Caching, Code Splitting, Performance Tuning
- Quality:** Type Safety, ESLint, Prettier, Clean Code
- Design:** Figma, Responsive UI, Accessibility
- Soft Skills:** Problem Solving, Learning, Collaboration, Adaptability
